BENEFITS OF A PARTNERSHIP WITH

Patients aging into Medicare can retain their doctors

When your patients become eligible for Medicare, it's important they select a plan with all their doctors in-network. Your assigned Medicare broker will be familiar with and contracted with all the plans accepted by your office. We will ensure your patients enroll in a plan that is aligned with their doctors and best fits their unique needs.

Patients losing or changing plans can retain their doctors

Medicare plans can change annually and, at times, end suddenly. This could potentially affect your patient's ability to stay with your office. We will help your patients navigate through the various plan options so that they maintain their doctors and never experience a disruption in coverage.

Providing valuable assistance to your Medicare patients

Medicare can be very confusing for our beneficiaries. They are often left to the mercy of the internet or overseas customer service to find answers. Clients often turn to their doctors and their staff as a trusted source of information. You can now refer them to a licensed and caring agent to ensure they receive the help they need.

Growing your client base through referrals

As Medicare Brokers, we are constantly asked by our own clients for good referrals for doctors. Working closely with your office provides us with the relationship and confidence to refer our clients to you. We have helped many offices grow their business through a referral partnership.
